Weather permitting the inside lane in each direction of State Highway 9 will be closed at McGee Drive on Monday, June 18, 2012. The purpose of the closures will be to excavate portions of the median and to pour sidewalks as part of a Pedestrian Upgrade project at various locations along State Highway 9. The prime contractor for this project is Midstate Traffic Control and the paving sub-contractor is Rudy's Construction. All lanes will be reopened to traffic by 5:00 PM on Tuesday, June 19, 2012. Traffic control will be provided to protect the traveling public. Questions related to this project can be directed to Mr. David Riesland, Assistant Traffic Engineer for the City of Norman at 405-217-7762.
